

### REMARKS

Applicants elect for further examination the claims of Group I, i.e., claims 1-4, drawn to a composition for enteric coating a natural product containing lectin comprising mannitol, Avicel PH 101, calcium phosphate dibasic, hydroxypropylmethylcellulose, water, ethanol, Zein-DIP and shellac. Applicants make the election without traverse.

Applicants believe that the foregoing is fully responsive to the outstanding Official Action including the restriction and the election of species requirement. If, however, the Examiner believes that any further information or election is required, the Examiner is encouraged to contact applicants' attorney at the number provided below. Such informal communication will expedite examination and disposition of the case.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC
